EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

The application has been amended as follows:

In claim 1, the first line of step c), replaced "bolier" with boiler.

In the last line of claim 1, replaced "polymethylolalkanes" with "polymethylolalkanals".

Reasons for Allowance

The following is an examiner's statement of reasons for allowance: Applicants process for preparing polyhydric alcohols in increased yield is unobvious over the prior art of record. The prior art does not teach or suggest the presently claimed process for preparing polyhydric alcohols wherein the high boiler fraction in step c), having a water content of from 20% to 90% by weight, is treated with acid before being recycled into the hydrogenation of the mono- or polymethylolalkanals. Such a modification would be counter intuitive to one having ordinary skill in the art and it also allows for the unexpected increase yield of the desired polyhydric alcohols.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
